The day I took out my Leroy Merlin Carte Maison loyalty card, I bought € 1600 worth of floating flooring. I immediately took advantage of my **5% welcome discount**, giving me a **saving of € 80** and on top of that I gained **1013 loyalty points**. That meant that I could have a 10% discount on another full day of shopping. As soon as we started working on my bathroom, I ordered products for an amount of € 2000... I applied my loyalty discount and saved € 200. In total, **I have made a saving of € 280!** Not bad I would say ?
